“ *First of all, sympathy to the family. My late Mother related to me several times that when they all were back in high school Bert would run interference and cover for her so she could sneak or skip school to run off with my Dad (Dennis & Virginia Maxine Evans Fitch) but I wasn't told this until like twenty yrs ago. I suppose she didnt want me to think they would do things like that.. ha . They have all had a good and full life and big families. Just thought I would share. Anne Fitch Ford*
