“ *Me deepest condolences to the Carpenter brothers. I remember John as a multi-talented student at Illinois College whose sardonic wit endeared him to me. I had forgotten about the GRUBS of Gardner Hall. (I lived next door at Turner.) We talked over the years, mostly over the bar at Don's. He was a fine raconteur whose love of the Illinois River Valley and its history came through in our chats. I also remember the care he provided to Jenny (sp?) Brown, briefly a colleague of mine at the Journal-Courier, during her illness. He was a kind man and a good man.*

“ *Steven and Paul, I am very sorry to hear of John's passing. He was a man of many talents - an actor, a poet, an artist, and a fisherman. Most of all he was a great friend.*

“ *To family and friends, I was friends with John almost 50 yrs. ago when he and I were in Summer Theater at the pavilion at the park on the lake south of J'ville. It's been so many years that I forget the names of places. He and I were cast as the two "thugs" in "Guys and Dolls". I always forget my lines, but he could prompt me in the middle of a performance. I still remember what fun it all was---when we were young.*

“ *Every person has a unique contribution to life. When I first met John almost 50 years ago his smile and personality impacted my life from the first. He helped this Gardner Hall Freshman loosen up a bit and see college days and life in a new way. For that I will always be grateful. He was part of the glue that held our band of friends together and his dorm room philosophy sessions still have merit. When the GRUBS meet in the coming weeks to honor our friend the shared feelings will be one of loss for each of us. Until later--Dave Craske*

“ *Steven and Paul, I'm so sad to learn of John's death. Our paths haven't crossed in many years, but I have a lifetime of memories. One of my favorites is his laughter as he tried to teach me the waltz. I never realized I had 2 left feet and he was so patient.*
