“OMG!! I tried calling Mark last week and sent him a text message on Saturday! I have been increasingly worried about him since our last conversation. Now I know why. So sorry to hear of his passing. The world just won't be the same without him. We worked together at Public Health and continued to visit and see each other. I always enjoyed going to the theatre with him because he always knew the "scoop" on what was going on. I will really miss him and my heart goes out to all of you. I'll try to make it to the visitation but if I don't make it, please know you are in my thoughts and prayers.
